An **Emirates Healthcare** Company

## Cardiology Department

---

Through its vast medical services, expert staff, progressive medical technology and country-wide network facilities, Emirates Hospital, an Emirates Healthcare Company, aims to provide a consistent, cultivating world of health, catering to the real-time medical needs of patients, in a cost-effective way.

Emirates Hospital cardiology practice offers full continuum of cardio-medical care for patients across all age groups. Our dedicated team of internationally trained, experienced, and award-winning cardiology professionals provide high-quality care for all our patients.

## What We Provide

---

Our world class facilities are equipped with latest cutting-edge technology and a strong network of best-in-class cardiologists. We provide:

- A wide-range of non-surgical cardio treatments
- 18 modern state of the art facilities with latest cutting-edge technologies
- Prompt access to tests and diagnostics imaging
- Full continuum of cardio-care
- Patient centred-solutions focussed approach
- No pre-registration required

## Our Treatments Include:

---

- Left heart catheterization
- Coronary angioplasty and stenting
- Echocardiogram
- Stress testing
- Carotid doppler
- Transesophageal Echocardiography
- Defibrillator implantation
- Pacemaker implantation
- Heart failure management
- Arrhythmia
- Hypertension and lipid management
- Preventive and general cardiology

## Catheterization Laboratory

---

- The Catherization Laboratory (Cath Lab) at the Emirates Hospital, Jumeriah is a facility that revives hope in our patients. Our hospital is fully-fitted to handle complicated treatments such as an ablation, angiogram, angioplasty, and implantation of pacemakers and ICD's.
- The Cath Lab at Emirates Hospital is a cutting-edge, 24/7 facility and can accommodate patients at any given time
- The Lab uses an intelligent flat screen system and advanced digital and Doppler technology that is capable of accommodating all kinds of cardiovascular procedures from opening a blocked artery in the heart or brain or down in the foot.
- The recovery time of patients has been cut short drastically. Patients need only a few hours or rest after smaller procedures have been completed.

Availing cardio-treatments at Emirates Healthcare gives you a true appreciation of what personal care is all about.

Due to a rising and alarming number of heart-diseases in the UAE, our team of cardiologists' advice our patients to:

- Eat healthier food.
- Avoid a sedentary lifestyle and exercise energy
- Take special precautions if you have a family history of heart disease, especially if you are over forty, a male, a smoker or overweight.
- Be extra careful if you have been diagnosed with high blood pressure or diabetes
- Avoid smoking and stressful condition
