Emirates Hospital

An **Emirates Healthcare** Company

Urology Department

Through its vast medical services, expert staff, progressive medical technology and country-wide network facilities, Emirates Hospital, an Emirates Healthcare Company, aims to provide a consistent, cultivating world of health, catering to the real-time medical needs of patients, in a cost-effective way.

Urology is a medical specialization of utmost importance. It's the branch of medicine focused on the prevention, diagnosis and treatment of diseases that affect the urinary tract for both men and women as well as the male's reproductive tract.

Our department at Emirates Hospital is an advanced facility with expert physicians and surgeons to offer you comprehensive and evidence based treatment from common to complex urology problems, using the latest technology and cutting-edge breakthroughs for minimum invasive procedures.

Our doctors have extensive medical training and experience in the treatment of medical conditions of the female urinary tract and the male genitourinary system, including incontinence, kidney stones, erectile dysfunction and different forms of cancer. At Emirates Hospital's Urology Department, you know you are in good hands.

If not treated in time or caught and identified swiftly, a medical condition related to your urinary tract can deteriorate alarmingly. Our experienced doctors and medical staff at the Urology Department will provide you the best care possible to treat multiple symptoms and medical conditions related to this specialty regardless of gender or age.
